

What The Back End Is Made Of?

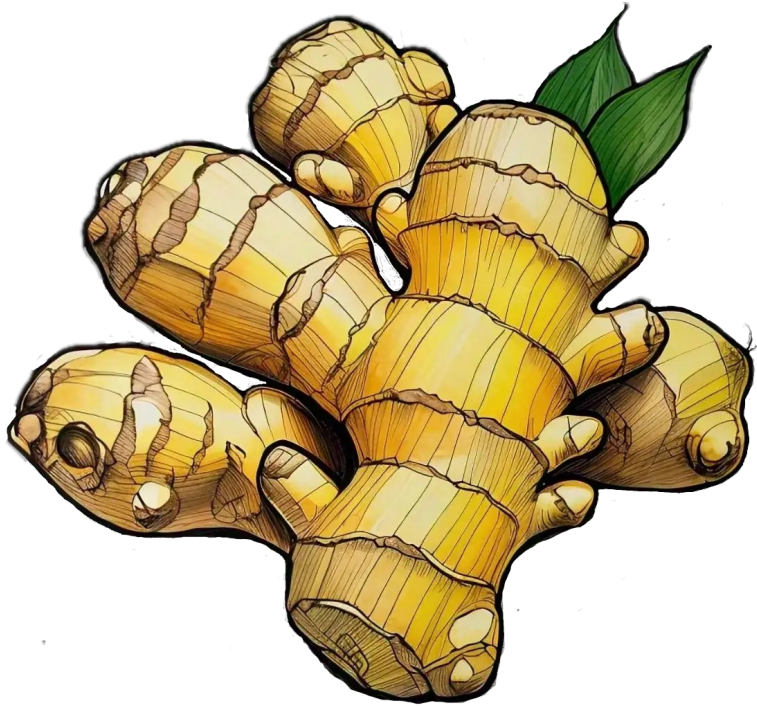

What The Back End Is Made Of?

- API Engineering
- GraphQL / JSON
- Reverse Proxy (Nginx, Caddy, Apache)
- Server Side Code
- Data Base (PostGres, Sqlite)
- DB Design
 - Relationships etc
- Team for front end back end
 - Comm between people
 - Human communication is super inefficient
- Same guy should think about front end and backend.
- Thought costs
 - Time
 - Money
 - Effort
 - Humans are very bad at logic and thinking
 - Computers are perfect at it
 - Repeatable
 - Error Free

Tech Toll

Psychological Toll
